May 6: Using a STEAM approach, we will explore the dazzling effects of dry ice vapors while adding color and light. Parents, bring your cameras as this art will not last long!

May 20: See what kind of art results when you let wind instead of your hands do all the work. Using various media, create artwork using the element, wind!

INNOVATION STATION Lab and MakerSpace

The Innovation Station is a platform to engage children and families in STEAM (Science, Technology, Engineering, Arts and Math) through innovative, hands-on learning experiences. The station is a space where kids create, discover, investigate and invent. Bring the whole family to the station for a chance to apply problem-solving skills, test and revise ideas, collaborate, and have fun while learning and celebrating various topics. These programs are free with paid museum admission.

Thursday - Saturday
10:00 a.m. - 1:00 p.m.
Sunday
2:00 - 4:00 p.m.

Physics Days

ISU Faculty, Dr. Jay Ansher, and students will provide hands-on demonstrations and experiments focusing on new topics each month!

Light and Color Thursday, March 9

Our eyes are the windows to our world, and the light that we see helps us make sense of what is around us. Come and explore light and color with the ISU Physics Club through hands-on activities. You'll see how light behaves, how a rainbow is formed, and meet the famous ROY G. BIV!

Conservation of Energy Thursday, April 6

Energy is one of the central ideas in science and has many different forms. Join ISU's Physics Club and discover how the Sun creates its heat and light, how energy is used in our bodies, and why energy does not really disappear when it's "gone."

Electricity Thursday, May 4

From Aristotle to Galileo, many famous scientists had ideas about motion. Why does motion occur, and how do we measure it? Watch hands-on demonstrations of all kinds of motion: fast, slow, up and down, back and forth, straight lines, and circles!

Summer Youth Volunteer Program

The Museum is looking for energetic and outgoing teens (ages 13-17). Youth Volunteers will spend their summer break assisting families as they explore the museum, leading free floor programming, helping with special events all while gaining valuable job skills. All volunteers must attend a 90 minute volunteer orientation. Only 50 youth will be enrolled in this year's program.

Youth Volunteer Orientation Start Times

Wednesday, May 31	10:00 a.m.
Thursday, June 1	10:00 a.m. 12:30 p.m. 3:30 p.m.
Friday, June 2	4:00 p.m.

Space is limited and pre-registration is required. Visit www.ChildrensDiscoveryMuseum.net, to pre-register and select your Volunteer Orientation date and time. If you have questions contact Amy Pitzer at (309) 433-3448 or apitzer@normal.org.

Grant Award: Golden K

In September, the Children's Discovery Museum (CDM) received a \$1,680 grant from the Golden K Kiwanis Club in support of our afterschool outreach program that serves almost 1,000 community students annually. Each semester during the academic year, Museum staff offer free Science, Technology, Engineering, Art and Mathematics (STEAM) programming at 16 area afterschool locations. The activities presented by CDM educators increase students' exposure, knowledge, perceptions and application of STEAM concepts and inspire a passion for learning.

Foundation Board

The Children's Discovery Museum Foundation Board exists to support the mission and vision of the Children's Discovery Museum, to raise funds to help underwrite the expenses of Museum exhibits and programs, and to advocate on behalf of the Museum to the community at large.

IS YOUR TEAM POWERED BY STEAM?

1ST ANNUAL PUSHCART DERBY

in UPTOWN NORMAL

Saturday
**May
20**

Gather your friends and family for the newest CDM event you won't want to miss! On May 20, 2017, the Children's Discovery Museum will partner with Illinois State University's Center for Mathematics, Science, and Technology for the first annual Pushcart Derby in Uptown Normal.

Teams of youth (3rd - 8th grade) will begin with a workshop led by ISU and Museum educators. Implementing principles of the design process and Science, Technology, Engineering, Art, and Math, teams will construct unique muscle carts. Then teams will test their designs and race to the finish in the road course derby. Prizes will be awarded to the winning team. Teams can range from 7-10 youth.

Construction supplies will be provided. All you have to bring is your love of learning and plenty of muscle power!

If you don't have a team of friends to join you for the fun, register individually and we will match you with other budding creators and engineers participating in the event.

Proceeds from the fundraising event will support the Museum's mission—enabling the expansion of programs, creation of exhibits, continuation of outreach initiatives and scholarship provision for disadvantaged youth.

For more information regarding the event, team registration, and sponsorship opportunities please visit ChildrensDiscoveryMuseum.net or call 309-433-3402.
